

If your safety harness is weighing you down,

LIGHTEN UP

EXOFIT
STRATA™

We feel your pain.

For decades, safety harness designers have prioritised one thing above all else: protecting you during a fall. This focus has led us to innovate powerful technology to get at-height workers home safely, day-in and day-out.

Better safety is great, but more technology can mean less mobility and comfort and added weight on your shoulders, leaving you feeling sore, fatigued and less productive by the end of the workday.

It's time somebody saw this from *your* point of view.

Introducing the

EXOFIT
STRATA™

The most comfortable,
lightest-wearing, truly innovative
safety harness ever created.

Seeing things from your perspective.

It's impossible to develop the perfect safety harness without getting your hands dirty. That's why we spent thousands of hours researching, collaborating with specialists and, most importantly, talking to actual at-height workers in the field. The result was the ExoFit STRATA™: the perfect combination of advanced safety features and an impossibly lightweight feel.

Tested and proven, in the lab and in the field.

After receiving positive feedback from users on the job, we knew it was time to put the ExoFit STRATA™ to the ultimate test. We partnered with researchers from the Sweere Center for Clinical Biomechanics and Applied Ergonomics at Northwestern Health Sciences University, and pitted the ExoFit STRATA™ against the Miller® AirCore™ and FallTech® FlowTech® safety harnesses. The results speak for themselves.

EXOFIT STRATA™ DELIVERS:

85%

LESS SHOULDER WEIGHT
WHILE STANDING*

64%

LESS SHOULDER WEIGHT
WHILE REACHING*

VIRTUALLY NO IMPACT
ON RANGE OF MOTION
OR BODY TEMPERATURE

*Compared to Miller® AirCore™ harness

Total comfort & productivity,
all day long.

KEEPS YOUR BACK

COOL

POLARMESH™ PADDING

Allows greater airflow to your back, providing superior breathability to keep you cool.

**UNLEASHES YOUR
MOBILITY**

REVOLVER™ VERTICAL TORSO ADJUSTER

Easily stores excess webbing, locking it in place and out of your way while maintaining the perfect fit.

LOCKS

DOWN LOOSE ENDS

TRI-LOCK REVOLVER™ CONNECTORS

Stores additional excess webbing and provides an extra layer of security around your legs.

SECURES YOUR SAFETY

**TECH-LITE™ ALUMINUM
SIDE & DORSAL D-RINGS**

Maximise reliability without adding extra weight.

CONNECTS YOU QUICKLY EZ-LINK™ QUICK SRL ADAPTER

Simplifies connecting and disconnecting your personal self retracting line.

FREES YOUR SHOULDERS LIFTECH™ LOAD DISTRIBUTION SYSTEM

Redistributes the weight from pressure points on your shoulders and spreads it out to the base of your hips.

HEAVY ON FEATURES.

LIGHT ON YOUR BACK.

EZ-Link™ Quick SRL Adapter

The EZ-Link™ quick SRL adapter lets you quickly attach personal self retracting lifelines into a durable connection point, while keeping your dorsal D-ring available. That means no more messing around with your webbing to connect SRL's. It reduces connection and disconnection time up to 80% compared to competitive harnesses.

LIFTech™ Load Distribution System

The revolutionary LIFTech™ load distribution system features an adjustable "spine" that lifts the weight off your shoulders and transfers it to the base of your torso. Tests resulted in a reduction of forces on shoulders up to 85% compared to leading competitor harnesses, including the FallTech® FlowTech and Miller® AirCore™. That means more comfort and productivity with less fatigue all day long.

Front Snap D-Ring

The front D-ring snaps into a vertical position for use with fall arrest or vertical systems. When not in use, it easily stores flat against the chest strap to keep it stowed and out of the way.

Lanyard Keepers

The highly durable breakaway lanyard keepers automatically reset when hooks are pulled out. They're conveniently designed to be adjusted to any position or placement along the webbing.

Harness Styles

ExoFit STRATA™ Rescue Style

Tri-Lock Revolver™ buckles, back, front and side D-rings, shoulder rescue attachment points.

Small	1114045
Medium	1114046
Large	1114047
XL	1114048

Rescue Positioning Lanyard

Confined space lanyard for use with rescue harness incorporating shoulder D-rings. Use for vertical lifts in confined space or rescue situations. Built in spreader bar keeps shoulder straps from being pulled in during use. With steel snaphooks 19 mm opening.

KF71201466

ExoFit STRATA™ Construction Style Harness

Tri-Lock Revolver™ buckles, back, front and side D-rings.

Small	1114049
Medium	1114050
Large	1114051
XL	1114052

The ExoFit STRATA™ redistributes the weight from pressure points on your shoulders and spreads it out to the base of your hips, helping reduce soreness and fatigue.
